

Pamela Becwar, Executive Director

Pamela Becwar has been working in the ECE field for 10 years and has lived in Plumas County for 20 years, having raised her family here. Pam has worked as the Local Childcare Planning Council (LPC) Coordinator and served on the LPC, the Children's Council, the Feather River College ECE Mentor Program Selection Committee, and the First 5 Commission (2019-2021).

Over the last 5 years, Pam has been working on statewide projects including the Child Care Initiative Project (CCIP) as the Northern Regional Coordinator for the CA Child Care Resource and Referral Network and most recently, she was the Professional Development Coordinator for the California ECE Workforce Registry. Working remotely at a state level has given Pam an understanding of the Registry's partnering organizations including First 5 California, California Department of Education, and WestEd.

In addition, Pam has worked directly with all 72 Resource and Referral agencies, First 5 Commissions across the state, and various County Offices of Education, Superintendents of School, and Unified School Districts as it pertains to professional development on the Registry. She brings to the Commission a rich network of resources and a passion for representing low- population rural counties.

As a graduate student at Portland State University, Pam took coursework towards Early Childhood Special Education and she wrote the CCIP training module on Special Needs and Inclusion. When Pam isn't dreaming of snow-topped mountains and hiking in the Sierra, she is dreaming of ways to better serve children and families in Plumas County.
